

# Caleb Reflections on School Year 2011

By: Caleb Hansen

## What I improved on:

# What I really enjoyed

- My Numeracy: Because I found a lot of the work very easy.
- Camp: It was fun and enjoyable for me.
- Literacy: We got to watch movies to try and improve our reading
- Inquiry: We got to make little multi media presentation to try and enter the Manawatu Digital awards
- Setting up for Assembly: I get to miss the start of class but it is fun because I get to set up very expensive equipment.

# What I am disappointed I didn't achieve

- Making the Manawatu Digi Awards: I thought I was going to make them but they obviously didn't think that it was good enough. Here is the link for my multi media presentation. You have to find the one that has a picture of the Abu Simbel  
<http://wsroom152011-2.wikispaces.com/The+World%27s+in+our+Hands>.
- My Gold Badge. The only reason that I didn't get it this year is because I am lacking Academic Awards

# What I didn't enjoy:

- Been late to class after assembly because I have to put the projector back in room 6 that means I am a little late for AVAILLL.

# What I am proud of:

- Running Cross-Country with a broken toe. A couple days before cross country I was coming out of the shed with one hoe that has wheels on them and as I ran out of the shed I fell and scraped my toe on the ground.
- Numeracy Improvement

# MY HIGH OF THE YEAR

- Helping out in the House Spelling Competition
- Helping teachers with their technical issues
- I got Deputy House Leader!!!

# my low of the year:

- The Burma Trail at camp. I ran into five trees which didn't hurt at all but I was a real low for me.
- On the first day at camp when we were walking back from the falls I scraped my leg on a log that was sticking out and it hurt.
